LUMBAR CUSHION

ad'just lumbar cushion

The solution to back pain in the car.

A car seat should accommodate all body types. Whether you are short or tall, thin or strong, the seats are the same for everyone. They are not custom made and do not take care of your back. The ad'just lumbar cushion adapts the seat to your body shape, supports your body in line with the road and supports your lumbar arch.

THREE COMPONENTS

- (A) the back piece
- (B) a set of two ergonomic cushions right and left
- (C) an inflatable lumbar support and its inflator

DIMENSIONS

See below

MATERIALS

- Selected quality materials for their technical ability
- Contact fabric: "honeycomb" mesh in 3D polyester (dry / absorbent / aesthetic)
- Grip fabric: polyamide mesh (velvet appearance / very resistant)
- Back piece foam: high resilience polyurethane (thickness 8mm)
- membrane / tube / inflator: Latex and PVC
- ergonomic cushion padding: EPS microbeads
- Composition, maintenance and serial number labels

PACKAGING

Transparent plastic bag with zip closure.  
Dimensions: H 8 x W 27 x L 40 cm (approximately)  
Weight: 600 g

CLEANING

Hand washable. Ergonomic cushions and membrane removable covers. Be careful not to bring the hook velcros with 3D fabric.
